

CORRODEX

HEAVY DUTY ANTI-CORROSIVE SYSTEM

WANT TO REJUVINATE, PROTECT & ENHANCE YOUR METAL SURFACES?

Presenting our complete Corrodex Heavy Duty Anti-Corrosive System for Metal. No matter the project, we've got you covered, with products to prepare, prime and top coat your metal surfaces around the home and work, on boats and vehicles.

For use on iron, steel, aluminium, copper, bronze, brass, galvanised steel and stainless steel.

THE ULTIMATE IN METAL PROTECTION

**PROTECTIVE**
PAINTS

DEGREASER

This product has been designed as a general purpose heavy duty cleaner for the removal of fat, grease, and oil contamination prior to painting. Supplied as a concentrate, mix at a ratio of 1 part degreaser to 4 parts fresh water for most jobs, or 1 part degreaser to 2 parts fresh water for more heavily contaminated areas. Refer to Technical Data Sheet for detailed mixing table.

Colour: Clear

Finish: N/A

Size: 500ml

SKU: 973-925

Thinners: Water

RUST INHIBITING OIL

An oil designed to penetrate and remove moisture from rusted iron or steel surfaces and provide protection from further corrosion. For use on surfaces with tightly adhering rust that is impractical to remove. Ideal for use over red rust on galvanised roofs. Can be left uncoated or primed with Corrodex Rust Inhibiting Primer and overcoated with Corrodex Gloss Enamel Top Coat.

Colour: Transparent Tan

Finish: Satin

Size: 250ml, 500ml, 1L, 300ml aerosol

SKU: 973-000

Thinners: Corrodex Special Thinner

ZINC RICH COLD GALV

A zinc rich cold galvanising product for use on bright iron and steel surfaces. Ensure the metal surface has been wire brushed to a bright metal surface before application. Recommended for aggressive environments, when the iron or steel is first treated with Corrodex Zinc Rich Cold Galv, then primed with Corrodex Etch Primer and overcoated with Corrodex Gloss Enamel Top Coat.

Colour: Silver/Grey

Finish: Matt

Size: 250ml, 500ml, 1L, 300ml aerosol

SKU: 973-910

Thinners: Corrodex Special Thinner

RUST INHIBITING PRIMER

A general purpose anti-corrosive primer for iron and steel surfaces. Suitable for use around the home and in marine (above waterline), engineering and agricultural environments. Remove any loose rust by wire brushing. If needed treat with the appropriate Corrodex Preparatory Product. Overcoat with Corrodex Gloss Enamel Top Coat.

Colour: White, Red, Grey or Black

Finish: Matt

Size: 250ml, 500ml, 1L, 300ml aerosol

SKU: 973-100 White, 973-620 Red, 973-810 Grey, 973-800 Black

Thinners: Corrodex Special Thinner

ETCH PRIMER

An anti-corrosive etch primer for use on all metal surfaces. Suitable for use on properly prepared iron, aluminium, bronze, copper and galvanised steel. Ensure all surfaces are clean, degreased and free of any corrosion products. Overcoat with Corrodex Gloss Enamel Top Coat.

Colour: Red, Grey or Black

Finish: Matt

Size: 250ml, 500ml, 1L, 300ml aerosol

SKU: 973-101 White, 973-625 Red, 973-865 Grey, 973-805 Black

Thinners: Corrodex Special Thinner

GALVANISED IRON PRIMER

An anti-corrosive primer for use on galvanised surfaces, including roofs. Ensure all surfaces are clean, degreased and are free of any corrosion products. Overcoat with Corrodex Gloss Enamel Top Coat.

Colour: Grey

Finish: Matt

Size: 250ml, 500ml, 1L, 300ml aerosol

SKU: 973-185

Thinners: Corrodex Special Thinner

GLOSS ENAMEL TOP COAT

Specially formulated colour range, exhibiting excellent water resistance and durability. Featuring high gloss and excellent colour retention, this finish coat will leave your metal surface looking magnificent. All you have to do is choose from one of our 15 standard colours. Custom colours can also be made to order.

Colour: Range of standard colours and custom colours on request

Finish: Gloss

Size: 250ml, 500ml, 1L, 300ml aerosol

SKU: 973-09 Rescue Orange, 973-13 Signal Yellow, 973-14 Signal Red, 973-49 Midway Blue, 973-51 Squadron Blue, 973-52 Polar White, 973-53 Tropic Green, 973-55 Light Mast Cream, 973-56 Cloud Grey, 973-57 Jet Black, 973-582 Mist Green, 973-600 Copper Brown, 973-71K Ford Tractor Blue, 973-8AN Ford Tractor Grey, 973-990 Aluminium

Thinners: Corrodex Special Thinner

SPECIAL THINNER

Special thinner designed to be used with all products in the Corrodex range, except 973-925 Corrodex Degreaser. Up to 10% Corrodex Special Thinner may be added if required to ease application or to maintain a wet edge. You can also use it to clean up any overspray when Corrodex Aerosol products are applied.
